Hello World! I am a Web Developer looking to start a career in IT. I began learning front-end development a little over a year ago and fell in love with it. Prior to that I was in Tech Recruitment and now I am developing responsive web apps and pages using vanilla JavaScript, React, jQuery. Visit www.oleglozovatyj.com to see some of my recent projects.

SKILLS

- HTML, CSS, SASS
- JavaScript, jQuery, React, JSON
- REST APIs and Firebase
- Responsive Design
- Web Accessibility
- Version Control and Collaboration using Git and GitHub
- Project Scope Management
- Best Practices for modern Web Development

FEATURED PROJECTS

Numberlicious ([View Live](#)) | HTML5, CSS3, React, REST API, Git

- An app that gives the user an interesting fact about a number in one of the given categories.

Pirate Card Draw ([View Live](#)) | HTML5, CSS3, SASS, jQuery, REST API, Git

- Cartoon pirate themed card draw game where the user plays against the computer. Higher card wins!

EXPERIENCE

Mentor | Juno College of Technology

Jul 2020 – Present

- Mentoring students in HTML, CSS, JavaScript (vanilla, React, jQuery)
- Supporting Lead Instructor during the Web Development and JavaScript intro classes
